Complete Set of all MIP Instruments.

More details are available at Decals Section

Introduction: Welcome Aboard

The first 2 big news of 2014 are the creation of this NEWSLETTER and a New Restyling of the whole WEB site. Scope of the Newsletter is to update all subscribers about the new activity and new products available at www.737homecockpit.com.

The new style of the website has been necessary for 2 reasons:

- 1. Give more visibility of my activities and products availability with a new logic organization and make easy readable the web.*

- 2. Due to an updated of WordPress version and theme, the site has been crashed and a lot of information was not readable.*

*2013 has been a very interesting year from all points of view ... was improved the graphics of the site, many products have been made available and the full visibility of the site is considerably increased, reaching the milestone of **100,000 visitors** . This allowed the knowledge of many people who sincerely **thank you for your appreciation** and for your confidence.*

*In this new year there will be many challenges to face ... in the first place to finish many **projects** I'm working on and you'll soon have a preview and thanks to the **newsletter** itself through the publication in the **appropriate sections** of the site.*
